Proposal Comments for Transmittals

Export Control:

The following export control disclaimer should be included in ALL PROPOSALS whenever possible, regardless of the funding source or the field of research. Should the electronic system for which the proposal is being submitted not allow for the uploading or inserting of any additional verbiage, it is acceptable not to include it.

NOTE FOR NSF ELECTRONIC SUBMISSION, PLACE COMMENT IN THE SECTION ENTITLED: “SINGLE COPY DOCUMENTS”

The Pennsylvania State University employs individuals and accepts students and graduate research students from a multitude of national backgrounds. As an entity, the University is subject to, and works diligently to obey, federal regulations regarding the export of controlled technologies and data. Sponsor, as an independent entity, is individually responsible for ascertaining its compliance with federal export laws and procedures. If Sponsor anticipates disclosure or provision of controlled technology or data to University as part of the proposed sponsored project, Sponsor should inform University, in writing, of the existence of, and information concerning the scope and extent of, such anticipated disclosures or provisions.

Intellectual Property Statement:

If this proposal is selected for funding by The Commonwealth of Pennsylvania, Department of Education, The Pennsylvania State University shall retain intellectual property rights to materials developed and the government has a non-exclusive right to use the materials for government purposes only.

If awarded:

If this proposal is selected for funding, The Pennsylvania State University shall negotiate terms and conditions of the award which are applicable to non-profit educational institutions.

WIA:

The Pennsylvania State University is not able to provide job placement or monitor training related jobs/employment. However, students/participants may utilize the University’s Career Development and Placement Center.
WIA/Performance:

If this proposal is selected for funding, The Pennsylvania State University (“University”) shall negotiate terms and conditions of the award which are applicable to non-profit educational institutions.

The Pennsylvania State University is not able to provide job placement or monitor training related jobs/employment. However, students/participants may utilize the University’s Career Development and Placement Center.
