Subject: Clarification - Limited Submission - NIH - Outstanding New Environmental Scientist (ONES) Award - Call for interest by 11/30/16

NIH ONES submission clarification:

We would like each college/school to select 1 application, and send us the name of the PI that will represent their college.

Potential PIs must contact their research dean first. The research dean recommends if the PI should apply, based on their qualifications.

We recommend that PIs should send their NOIs to their research dean by November 30th.

The letters of intent to NIH are due January 28, 2017, and the full applications are due February 28, 2017. We recommend that the colleges make their selection and notify the selected PI before the end of the semester.

Please let us know who you have selected, once you have notified the PI – email to limitedsubs@psu.edu.
